

Right-handed Pistol Correction Target

Safety First! Always Keep

- Your gun pointed in a safe direction
- Your finger off the trigger until ready to shoot
- Your gun unloaded until ready to use

How to Use This Target:

Start by firing 5 shots from 5 yards in a benchrest position. If all shots land within the gray, move to a greater distance away. If some land outside of the outer ring, move closer. Correct the identified issues and repeat from a greater distances. After mastering the benchrest position, work on 1- and 2-handed standing positions.
